PIN-413305

### Objective

"Self-motivated, passionate and adaptable Software Developer with expertise in Software development using React and JavaScript, looking forward to start career with an organization of repute to utilize skills & knowledge possessed for organizational and self-growth."

### Project Handled

#### Project: 1

Project Name: – Blood Bank management System

Description: – Developed a comprehensive Blood Management System to gain practical experience in software development, database management, and project implementation.

Key Responsibilities:

- Developed a Blood Bank Management System as a major project, utilizing Java and MySQL.
- Designed and implemented a user-friendly console-based interface for administrators to manage Blood records.
- Utilized Java's core features to handle Blood bank data, such as adding, updating, and deleting records. Implemented basic authentication to secure the system and control access. Utilized MySQL for database management and data storage.
- Demonstrated understanding of database operations by handling Blood Bank data effectively.
